
MTxRUWSLPro Programmable Motorized Turntable USB/WiFi Auto Shutter For 3D Scanning And Photography

From: $129.99

- **Multi-Interface Control**: USB, Wi-Fi, infrared remote, mobile APP, and PC software for flexible operation.
- **Full Programmability**: Open SDK and CT command protocol for custom control scripts and secondary development.
- **5 Rotation Modes**: Continuous, single-step, multi-step, pendulum swing, and repeated step for diverse applications.
- **Wide Application Scenarios**: Perfect for 3D scanning, product photography, exhibition display, video shooting, and industrial testing.
- **Auto Shutter Sync**: Sync with DSLR for automated step-and-shoot workflows .

ComXim MTxRUWSLPro Programmable Motorized Turntable With USB/Wi Fi/Remote Control, Multi Mode Rotation, Auto Shutter Sync, For 3D Scanning, Product Photography, Display And Industrial Testing

Multi Mode Rotation Control

- 5 core rotation modes: Continuous Rotation, Single-Step, Multi-Step Within One Circle, Pendulum Swing, Repeated Step.
- Supports precise angle setting (1° increments) and custom pause duration for automated workflows.
- Ideal for step-by-step shooting, 360° product views, and repetitive industrial testing.

Multi-Interface Control And Secondary Development

- Control via USB, Wi-Fi, infrared remote, mobile APP, or PC software.
- Open SDK and CT command protocol for custom software/script development.
- Compatible with Windows/Android platforms for cross-device integration.

Auto Shutter Sync And Camera Trigger

- Built-in auto shutter sync function.
- Triggers camera automatically during rotation pauses for seamless 360° product photography.
- Supports DSLR/mobile camera synchronization for professional content creation.

High Load And Stable Performance

- Heavy-duty design with high load capacity options.
- Adjustable rotating speed varies slightly with load for stable operation.
- Precision stepper motor ensures accurate positioning and zero-degree mark alignment.

Origin Setting And Precision Positioning

- Set current position as origin with one click; return to origin via shortest path.
- Supports multi-position indexing for consistent product display and industrial inspection.
- Ideal for repetitive tasks requiring exact rotational alignment.

Complete Packaging List

- 1 x Programmable Motorized Turntable (MTxRUWSLPro series)
- 1 x Infrared Remote Control
- 1 x Power Adapter
- 1 x Data Cable (USB)
- 1 x User Manual & SDK Development Guide
